

BRITISH NAVAL VESSELS HELP SPANISH REFUGEES.

CH/L

British Naval vessels are still evacuating refugees from Spain. These pictures were taken on board H.M.S. Forester which carried some 200 refugees from Bilbao to St. Jean de Luz. They were nearly all of Spanish nationality and there were some very small babies in the party. H.M.S. Forester is now in home waters after working on patrol along the Spanish coast.

Photo shows- Looking down on the decks of H.M.S. Forester during the voyage to St. Jean de Luz showing some of the refugees.
